EUROPEAN YOUTH  
ORIENTEERING  
CHAMPIONSHIPS

SZCZECIN  
21-24/06/2024

## WELCOME

Once in a while such a prestigious event are organised in country like Poland, so it's our duty to provide best terrain we have, for such an event and in case of EYOC 2024, I'm pretty sure we did it. In less than few weeks you, athletes will experience it for yourself, physically and technically demanding terrain of Beech Forest.

For long distance you should expect a hilly, moraine terrain which creates a perfect condition for course full of route choices. As you surely know runnability in Beech Forest is in general good, but there will be places where you should take your foot off the gas pedal, as visibility and runnability will get worse. It will be race where real long distance skills will come to play, with proper route choice, strength and stamina.

Relay is different scenario, terrain varied from semi open, sandy terrain, through some bushy part, into open, but still tricky terrain, where you will be able to speed up. Careful map reading, appropriate speed adjustment and focus on your orienteering will play the main role as there will be plenty of controls and plenty of runners.

It's going to be a real fun Event with interesting terrain, perfectly suited for European Youth Orienteering Championships. Good Luck to all of you and let the best wins.

## HELLO

I would like to say a very warm 'hi' to all the young orienteers coming to Szczecin to make their sports dreams come true. I had the pleasure to prepare the sprint map and sprint courses for you. My motto while setting courses is to make them as fun and as challenging as I would personally like them to be prepared for me. You can be sure that the coming European Youth Orienteering Champions in sprint not only have to be the fastest, but also the brightest. You can expect to be tested both physically and technically while navigating through beautiful alleys of Szczecin old town. I wish all the best to all of you coming to Szczecin and I hope you are all going to leave Poland with wide smiles on your faces. Have a great time in Poland and good luck!

## COMPETITIONS RULES

The Competition Rules for IOF Foot Orienteering Events (version 2023 v1.21 valid from 30.01.2023) shall be applied to participation in the European Youth Orienteering Championships 2024, with special attention to Appendix 8.

Competitors representing member Federations of the IOF, defined by the International Olympic Committee as belonging to the European continent, can compete in EYOC.

Competitors representing other member Federations of the IOF can participate in EYOC but will not be eligible for European titles, medals or diplomas.

## CLASSES AND RESTRICTIONS

M16/W16 – Men/Women born in 2008 or later

M18/W18 – Men/Women born in 2006 or later

- \* Each country may enter a maximum number of 4 competitors in each class and one relay team/class. A maximum number of officials per team is not limited. All participants must be full passport holding citizens of the country they are representing.

### START INTERVAL

Sprint Distance - 1 min

Long distance - 2 min

Relay - Mass start

### START DRAWS

For Sprint and Long competitions, starting time is drawn randomly in 4 starting groups (1 – early, 4 – late). Each Federation may allocate a maximum of 1 athlete in each starting group. If a Federation fails to allocate its competitors to starting groups, the organiser shall decide the allocation. Competitors from the same Federation shall not start consecutively. In the Relay, all teams in the same class start together.

## FAIRNESS

It is not allowed to use mobile phones, radios, computers or any other communication devices in the quarantine areas.

It is not allowed to bring in old orienteering maps of the competition area. It is not allowed to use music players.

It is strictly forbidden to bring any electronic devices (except for watches) to toilets in the quarantine zones – no matter if the device is turned on or off.

Competitors must not use or carry communication devices that can transmit or receive information, to or from a remote source, between entering the quarantine zone (or the start area if there is no quarantine zone) and reaching the finish in a race, unless the equipment is approved by the organiser.

GPS-enabled devices (watches etc.) can be carried provided that:

- they have no map display
- they have no communication capability other than receiving GPS data
- they are not used for navigation purposes.

Coaching, i.e. handover of information, equipment, material, drinks etc. is only allowed in the designated coaching zones. Transferring information regarding the remainder of the courses is strictly forbidden. Competitors and coaches are not allowed to visit the arena of the individual races before going to the start area. Team officials and non-competing runners are not allowed to enter the competition terrain before or during the competition. A competitor or team who breaks any rule, or who benefits from the breaking of any rule, may be disqualified.

## QUARANTINES

The quarantine zones and organisation is different for each competition. Please check each discipline specific information for more details. For Sprint and Long distances, the quarantines include outside and inside area with toilets available. There will be a warm-up map for both Sprint and Long distances. Competitors should only walk/run within the map. In case of leaving the warm up map for any reason, the competitor will be disqualified.

If a competitor or team leader exits the quarantine after it is closed, they won't be able to come back in.

## GPS DEVICES

GPS devices will be handed out at the start zone. There will be a GPS tracker for all competitors. All competitors should take their GPS device at least 20 minutes before their start. There will be printed start list in the Quarantine zones. The competitors' start time is called up at the pre-start. It is the competitors' responsibility to watch out for their start time. There will be an option to place any bags and luggage to be transported to the Finish arena in certain time intervals. Team officials who leave the quarantine once, cannot go back in.

## START PROCEDURE

At the start of the individual races, the maps will be placed facing down on a table at the start line. At the moment of start, an official releases the competitor by taking his hand off the competitor's shoulder. The start triangle is marked in the terrain by a start flag. The route to this flag is marked with corridors or tapes. Competitors must follow this marked route to the start point. The map issue point with the taped route to the map start is marked on the maps.

Individual races start procedure: athletes enter the start proper 3 minutes before their real start time.

At -3 min athletes clear, check and test their SIACs.

At -2 min athletes get their control description.

At -1 min athletes line up to the start line with maps placed face-down on a table.

There will be a signal for start and an official holding the competitor shoulder. After the signal, competitor should take their map and start.

The relay start procedure and the description of the map board is explained in the Relay competition section.

## LATE START

Competitors who are late for their start must check-in at the pre-start callup. The competitor will be allowed to proceed to the start line. If – upon arrival at the start line – the competitor is less than half the start interval after his/her start time, he/she will be allowed to start immediately. If the competitor arrives more than half the start interval after his/her start time, he/she will have to wait until the half start interval after the next starter. In all cases of lateness caused by the competitor, his/her original start time will count for timing. If a competitor is late through the fault of the organiser, he/she will be timed with the real start time.

## MAXIMUM RUNNING TIME

The competition instructions state the maximum running time for each competition. If the time limit is exceeded, the athlete will be disqualified.

## EXTRA CONTROLS

In the competition area - apart from the controls from the EYOC courses, there will be additional controls for the Grand Prix Polonia competition.

## TIME-KEEPING

SI AIR+ system will be used in all races. The organisers can provide AIR+SI cards (SIAC) upon request - please state that within your entry form.

Renting SIAC is 10 EUR for all races per card. SIACs can be tested during Technical model event. In the unlikely situation of a SIAC failing to register in touch free mode, the competitor must make a manual punch by placing the SIAC chip into the SPORTident station. In the unlikely situation of an SI station failing to respond with direct punch (neither a feedback beep nor a light feedback signal), the competitor must punch manually on the map using the pin-punch on the control stand. If a competitor has pin-punched any control on the map, he/she must hand the map in at the SI-readout and tell which control is pin-punched.

Time will be rounded down to whole seconds in all competitions. For each individual competition, there will be a time-keeping finish line that will stop the runner's time upon passing. In the Relay competition, event officials will decide placings for the 3rd leg runners in case of a close run-in. GPS Tracking will be used for all competitors/teams.

## ABANDONING THE COMPETITION

In case of abandoning the competition, the competitor must immediately go to the finish area to report, give-out their map and read-out his/her SCard.

## FINISHING PROCEDURE

Time will be measured in the moment of crossing the finish line (when the SIAC transponder crosses the finish line). No punch is needed at the finish line. Upon crossing the finish line, athletes enter a restricted-access area for SCard read-out and removal of GPS units and vests. Coaches are allowed in this area, there are drinks available and there is access to first aid if needed. Cool-down is possible within the arena limits - see arena plans.

## COMPLAINTS AND PROTESTS

Any complaint shall be made in written form and handed over at the Arena Info Desk as soon as possible. Complaints regarding the results shall be made no later than 15 minutes after the publication of the provisional result list.

A written protest can be made against the Jury's decision about a complaint. Written protests shall be delivered personally to the Event Office along with the protest fee of 50 EUR in cash. Complaint / protest forms will be available at the Arena Info Desk.

## MEDICAL CARE

During all competitions there will be an ambulance available at the arena for all EYOC participants, team officials and guests. The phone number for emergencies in Poland is 112. Free massage for athletes will be available after all races in special tents.

## TOILETS

Please check each arena and quarantine map for all available facilities.

There will be toilets in each arena and quarantine.

Long - Finish arena - 8 toilets; Quarantine - 6 toilets; Pre-Start Zone - 2 toilets

Sprint - Finish arena - 8 toilets; Quarantine - 8-10 toilets

Relay - Finish arena - 8 toilets; Quarantine - 8 toilets

## TRANSPORTATION

Teams are encouraged to use their own transportation. For the sprint race, we recommend using public transport.

## BIB NUMBERS

There will be bibs numbers. Bibs will be placed in the team envelope during accreditation.

## LIVE COVERAGE SERVICE

There will be TV screen at the Finish arenas for each competition. Live results and GPS service (provided by Trackcourse) will be available.

You can follow the competition live at <https://eyoc2024.pl/>

## Transportation to quarantine

Competitors and team officials use their own transportation and park near the quarantine zone.

Due to the limited number of parking spaces in the quarantine zone, some cars will have to park along the forest access road. We also encourage the teams to share their cars, if possible.

Team Officials can go from the Quarantine to the Pre-start and back using organiser's buses (5 min by car). They are not allowed to enter the Quarantine when they come back. Team Officials going from Quarantine to the Arena can go by own car or get a lift with the luggage transport.

## Competitors bags and luggages

There will be a place inside the quarantine to leave one bag per competitor to be transported to the Finish arena. Tags will be provided in team bags to mark the luggage

## Pre-Start

Transport from the quarantine to the pre-start zone will be by buses provided by the organiser.

Four buses will run regularly.

The distance from the quarantine zone to the pre-start zone is 6 minutes by bus.

The competitor decides when she/he wants to go to the pre-start zone.

9-passenger buses will run every 4 minutes.

A warm-up map on a scale of 1:10 000 will be available in the pre-start area.

## Starting procedure

Competitors go to the pre-start zone from the quarantine when they decide they want to go. There will be taped boxes as shown in the scheme below.
